Add Definition of Done for sprint 1 here.

4.3 User Stories and Tasks for Sprint 1

User Story ID	Title	User Stories	Assigned To	Priority	Task(s)	Estimation (in hours)

IT2151/2551 Assignment (25S1)

< Copy user stories/acceptance criteria/tasks from Azure DevOps to the table above. Do note the following:

a) Remove any HTML code and convert it to MS Word formatting.

For example, we have the following text:

```
<p><strong>Add user to the following:</strong></p><br/><ul><li>role</li><li>organization</li></ul>
```

It should be converted to standard formatted text so that it looks similar to the following:

Add user to the following:

- Role
- Organization

b) For field [Assigned To], put the name of student associated with the task. Use official name as found on Admin Card.

a) DO NOT COPY User Stories from Azure DevOps as an image. Populate the table above using query result from Azure DevOps. Refer to your practical. Add new rows if needed; adjust column width if required.
